A.Sivalakshmi(962719106032) –Team Member 1

T.Sivamartin(962719106033) –Team Member 2

R.Sornamala(962719106034) –Team Member 3

The screenshot shows the IBM Cloud dashboard interface. At the top, there's a navigation bar with the IBM Cloud logo, a search bar, and links for Catalog, Manage, and the user's account (Sornamala R's Account). The main content area is titled "Dashboard" and includes a sidebar with navigation icons. The "For you" section features five cards: "Build" (Explore IBM Cloud with this selection of easy starter tutorials and services.), "Build a web app with Watson Speech to Text" (Deploy a conversational interface compatible with any application, device, or channel.), "Get Started with Watson Studio" (Get started with using AI and Cloud Object Storage in 15 minutes.), "Build a Virtual Private Cloud (VPC)" (Upgrade to a paid account to create your own protected space in the IBM Cloud.), and "Learn about IAM Roles" (Learn about roles in Cloud and how they control access.). Below this, there are four sections: "News" (IBM Cloud Data Shield Deprecation, IBM Watson Orchestrate Is Integrating with ThisWay Global, SLSA Support in IBM Cloud Continuous Delivery, WebSphere Application Server Support Restatement), "Recent support cases", "Planned maintenance", and "IBM Cloud status" (with a world map). The user's profile menu is open on the right, showing options like Profile, Log in to CLI and API, Privacy, Change theme, and Log out.
